

Dormancy Symposium

Welcome

09:15 – 9:30 | Normand Pouliot (ONJCRI, Melbourne) – president of OzMRS

Guest Speaker

09:30 – 10:15 | *Chair: Thomas Cox (Garvan, Sydney)*
Julio Aguirre-Ghiso
Endowed Professor of Cell Biology, Albert Einstein College of Medicine and Founding Director of the Cancer Dormancy and Tumor Microenvironment Institute.
Intrinsic and microenvironmental control of early disseminated cancer cell dormancy and metastasis initiation.

OzMRS AGM

10:15 – 11:00 | *Chair: Normand Pouliot (ONJCRI, Melbourne)*

Morning Tea

11:00 – 11:15 | **Morning Tea**

Short Talks

11:15 – 11:35 | *Chair: Philip Gregory (University of SA, Adelaide)*
Charlotte Roelofs (ONJCRI, Melbourne)
MYC is a master regulator of dormancy in triple negative breast cancer

11:35 -11:55 | Elizabeth Williams (QUT and TRI, Brisbane)
Castration-induced prostate cancer dormancy associated with detection of stem-like features and epithelial-mesenchymal hybrid circulating tumour cells

11:55 – 12:15 | Kendelle Murphy (Garvan, Sydney)
Intravital imaging technology guides FAK mediated priming in pancreatic cancer precision medicine according to Merlin status

Round Table Discussion

12:15 – 12:45 | *Moderators: Robin Anderson (ONJCRI, Melbourne), Rik Thompson (QUT, Brisbane)*

Meeting Close

13:00 | **Meeting Close**
